Re: Meeting Regarding Mammoth Mine Site Reclamation and Transfer from Grand Central Silver Mines to Mammoth Mining Company, M/023/041 & E023/033, Juab County, Utah

Dear Mr. Hansen:

I have put together the meeting notes (memo enclosed) from the meeting held at the Division offices on April 17, 2000. On April 20, 2000, we received a copy of a letter to you from Barry Katona, representative of Grand Central Silver Mines. Along with that letter were copies of two transfer forms to transfer the Eureka/Sunbeam/West Mammoth exploration project (file number E/023/033) and Mammoth Mine Small Mining Operation (S/023/041) from Grand Central Silver Mines to you, Keystone Surveys, West Tintic Mining Company, South Iron Blossom Mining Company and Axis Development Corporation. If these transfers are appropriate, please sign and return them to the Division, as soon as possible, and we can put this matter behind us.

As was discussed with you during our meeting, you will provide an assessment of all disturbances associated with your mining and exploration work by May 15, 2000. Any disturbance associated with these two permits and any additional work not permitted by the Division, is subject to this assessment and requires reclamation under the law. It would also be appropriate to categorize this work and schedule its reclamation completion date by May 15. Division staff and Mr. Jason Knowlton did a preliminary assessment of potential sites during a April 7th and 8th onsite inspection. We will prepare a memo documenting the findings during this visit by May 5th. It will then be copied to you.

Thank you for your cooperation. We hope to work towards completion of this project this year. If you have any questions regarding this letter please call me at 538-5321 or Wayne Hedberg at 538-5286.

Sincerely,

Tom Munson
Senior Reclamation Specialist
